Keyword assignment

Tell our platform which keywords you want each page to rank at the top of Google for, and we'll help you SEO them!

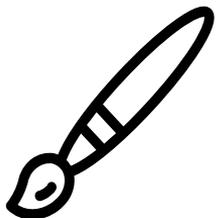

Once you've chosen your keywords you need to tell our platform which pages on your website you want to appear at the top of Google's rankings.

It's very important, that for each keyword you choose, you have one specific page on your website that you want Google to find.

This step ensures you have the right number of pages on your website so that you can rank highly for all your target keyword phrases.

Local SEO

The screenshot shows a Google My Business listing for 'Plumbers London Ltd'. The listing includes a 4.4-star rating from 3,941 reviews, the address '1 Plumber St, Plumbers Lane, London PL00 1PL', and contact information. A grey text box is overlaid on the bottom left of the screenshot, with an arrow pointing to the listing details. The text in the box reads: 'We'll show you exactly where your business profile needs to be optimised to boost your local SEO rankings.'

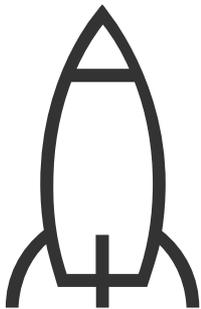

When it comes to local SEO and ranking in map results you need to make sure that your Google My Business listing is SEO-optimised for best performance.

Google also reviews authoritative national, local and niche directory websites for your inclusion, and if you're not listed then you're at a disadvantage.

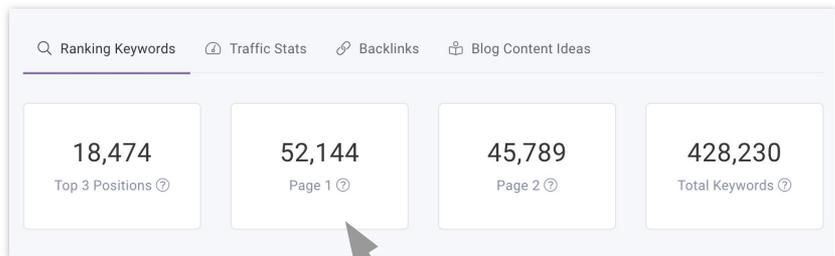

Our platform will help you optimise your GMB listing, audit your business presence across top directories, manage your reviews, Google posts, track performance and more!

Competitor research

Want to know exactly what keywords your competitors rank for? We'll show you!

Competitors are a gold mine when it comes to SEO.

When you're building an SEO strategy you need to review your competitors to see what you can learn and apply.

Our platform will show you all the different keywords they target with their SEO, how they perform and what the search opportunity is.

We'll also highlight: how much traffic they get and where it's from, what backlinks they have and the quality of each, and what blog content drives them traffic.

Add in your keywords, and we'll show you every time a journalist is looking for information. Great for backlinks!

Building backlinks is very important for SEO. A 'backlink' is a link from a website to your website. These act as 'votes' for your website in Google's eyes.

Our platform will help you build new backlinks from two sources:

1. Competitor backlink analysis - we'll show you where your competitors have links and you don't (plus we'll give you the website's contact details)

2. Journalist outreach - enter in your expert topics, and we'll show you every time a journalist is looking for help in that area.

Keyword tracking

Keyword	URL	Positions			
		Current	Previous	Last Week	Last Month
Keyword 1	/	2	2	2	▲ 2
Keyword 2	/services-page/	3	3	3	▲ 5
Keyword 3	/product-page/	11	▲ 2	▲ 1	▲ 2
Keyword 4	/blog-page/	13	13	▲ 2	▼ 1

Keep an eye on your website in Google's rankings so you can see what's working and what needs more focus.

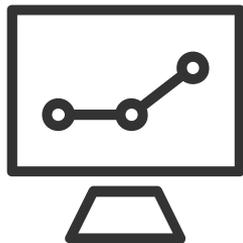

Once you start your SEO campaign it's super important to track your rankings. SEO is a gradual process and takes time, and you need to track how visible your website is in Google.

Our platform will track exactly where your website appears in Google, so you can keep an eye on progress. It tracks over time too, so you can see which phrases are moving up the quickest.

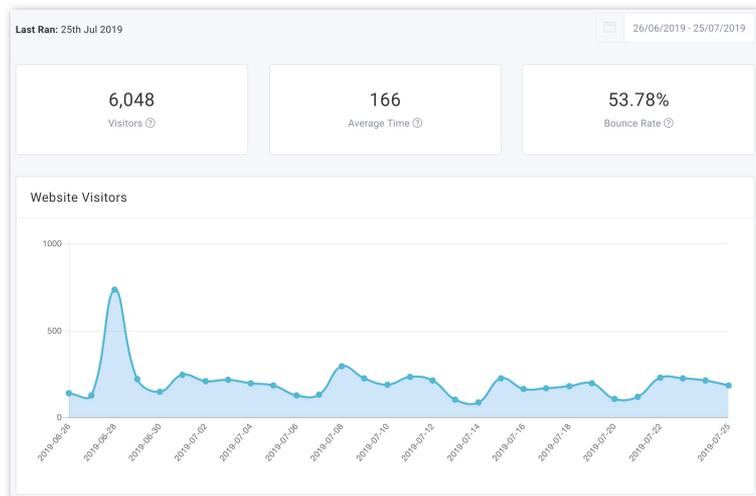

We'll even highlight your top competitors across all your keywords and monitor them for SEO insights!

Traffic

Keep an eye on traffic to your website with our traffic reporting feature. Our platform connects up with your Google Analytics account and shows you the key data you should be reviewing.

We'll show you how much traffic you're getting, what sources are driving this, where your visitors are based (by location), whether they're using a mobile or desktop, and what websites are referring traffic to you.

We simplify this data so you easily monitor the most important metrics!

We're here to help

Our platform is going to tell you exactly what you need to do to get to the top of Google.

But If you're running short of time one month, or just need a little help, **we're on hand to help.**

Whether it's content creation, technical changes, backlinks or anything else we can complete any actions you need.

In summary

We'll show you how to boost your site's rank on Google.

We'll hold your hand as much as you need.
We'll even do it all for you if you want!

You'll learn a very useful skill in the process.
